Report of the Selectmen

ROAD CONSTRUCTION

During the year 1966, the accelerated T. R. A. road program was completed with the extension of the pavement of the County Road to Hunter's corner and paving of the Fisher Road to the corner of the Lake Road. The Class V Highway allowance was used to pave the Dickey Hill Road from Route 149 to the Allen homestead, this being a continuation of the work which was started in 1965.

HIGHWAY MAINTENANCE

We have continued the practice of hiring equipment from private individuals, wherever possible, for plowing snow and other highway work. Since this was the second year that this type of operation was used, we now feel that a comparison can be reasonably made between this method and Town owned equipment. In our judgment, there does not appear to be any significant difference between the two methods of operation. There is, however, some appreciable saving in insurance costs as we reduce the number of Town owned vehicles. This will be more apparent when the Town eventually owns only a road grader as a permanent piece of equipment.

NEW EQUIPMENT

This year, we are asking that the Selectmen be authorized to purchase a new road grader. This request is made with the intention of postponing the actual purchase as long as the present machine continues to function without any major breakdown. However, in the event of the complete failure of this 16 year old equipment in the middle of the year, the Town will be able to purchase a new machine without the expense of a Special Town Meeting.

LIBRARY BUILDING

We asked the North Branch Builders to inspect the Library building and recommend any necessary repairs, also to estimate the cost of making these repairs to the building at its present location as well as the cost of moving this structure to the so called "Hotel Lot." It appears that a sum of between \$1,200 and \$1,800 would be needed to restore this building to good condition in its present location. To move this building to a new foundation on the "Hotel Lot" and to repair the structure would cost between \$3,200 and \$4,000. We are recommending that the Town postpone action on this building for another year, or until the future effect of sharply increased school costs is better defined.

SCHOOL DISTRICT

The cost of running the school district is increasing at an alarming rate. Last year, an increase of \$4.00 in the tax rate per \$1,000 of evaluation was caused by a large increase in our share of the school district costs. The Selectmen have felt that the assessment of property in the district needed a very careful reviewing and have, therefore, petitioned the State Tax Commission to review the equalized valuation of the district.

Deering Planning Board Report

At the annual Town Meeting on March 8, 1966, a motion was made from the floor that the Selectmen should appoint for one year's tenure a Planning Board consisting of a chairman and four other members, who should make a study of the needs of the Town for future growth and development and who should submit its report to the Town at the next Town Meeting. The Selectmen appointed Dr. James M. Carew as Chairman and Jeremiah J. Donovan Jr., Irving W. Ireland, John Morton and Malcolm Steele as the other members of the Board. Subsequently Mr. Steele wished to resign and he was replaced by Whitney S. Yeaple.

The Board has had several meetings throughout the year and much discussion took place concerning the immediate and future prospects of the Town. While it was agreed that we needed expansion to have a larger taxable base to alleviate the existing tax load on the present property owners, it was the consensus of the Board that trying to attract an Industry to settle in Deering was not feasible or particularly advisable. We do not have the resources or the available labor force that would attract an Industry of consequence. Then too, from the experience of other New Hampshire towns the advent of an Industry is not an unmixed blessing. Far too often the increased cost of schooling, roads, and services offsets the additional tax revenue.

With these things in mind it was felt by the Planning Board that Deering should try to attract more tourist and summer residents and also more retired people. In order to do this the Town should make itself as attractive as possible and at the same time should strive to maintain its rural charm. Specifically we would propose the following:

1. Since the Deering Lake is our biggest attraction as

well as our greatest source of tax revenue, we believe that roads should be improved and tarred around the lake as soon as possible.

2. We suggest that there should be a Town Dump furnished for the convenience of the local and summer residents.

3. Junk yards should be actively policed under the provisions of the new State Law and should be kept to a minimum.

4. In View of the fact that our bordering Towns of Weare, Henniker and Antrim are considering and that Hillsboro and Francestown have already voted in an ordinance concerning the regulation of Trailers and Trailer Parks, we urge the voters to enact a similar ordinance for Deering.

5. If we are to attract more residents to the Town then land must be found that is for sale. We suggest that a real estate survey and study be made to ascertain what quantity and what type of property is available.

6. For the convenience of visitors and tourists we propose that inexpensive stenciled road signs be erected around the Town.

7. We believe that the Airport in West Deering could be a boon to the Town for those who wish to fly in for vacation or business visits. The Town should cooperate with Nathaniel Hawthorne College on this.

8. We believe that telephone toll charges between different sections of the Town are unjust and upon a legal appeal by the Town to the State Utilities Commission could be eliminated.

9. We think that as the Town grows a study of expanded fire and police protection should be made.

10. Because we believe that Planning Boards have a valid and continuing function in the development and promotion of Towns and Regions, we urge that the article by the Selectmen in the Town Warrant to establish a permanent Planning Board be adopted.

Report of the Libarary Trustees

The Deering Public Library continued to function in 1966 in a limited way, having been open four hours a week during July and August, with Janet Bittenbender in charge. Books were kept at the homes of the trustees and the librarian, Mrs. Alberta Segrell, during the remaining ten months of the year. Because of a change in the Bookmobile operation, it came to Deering twice instead of the usual three times. The total circulation for 1966 was 229 books, an increase of 42 over 1965. Four books were purchased, and Robert Abernethy of N. B. C. News, a long-time summer resident, presented to the library an autographed copy of his book, "Introduction To Tomorrow". With his autograph is the following inscription: "With my best wishes and great affection for my friends in Deering, who have given so much to me and to all the Abernethy family."

According to the New Hampshire State Library Statistics we had the dubious distinction of being very near the bottom of the list of towns of comparable population with regard to per capita appropriation and expenditure. The librarian and the trustees would like to see Deering move up a little on that list!
